

## T&H SENSOR - 03 (battery operated) cod.9.000.078

The ezon.io temperature sensor can determine the temperature or humidity level in an environment.

The **Ezon.io Temperature and Humidity Sensor** is an advanced device designed to monitor the environmental conditions in your home or any other indoor environment. Thanks to its high precision, it reliably detects the temperature and relative humidity, allowing you to maintain total control over the climate of your home.

One of its main features is the compatibility with other Ezon.io devices (**climate manager**), which allows for seamless integration into the climate automation of your home.

The sensor is easy to install and manage with the **Ezon.io app**, which allows you to monitor the device and connect it to voice assistants such as **Amazon Alexa** and **Google Home** to customize your automation experience.

The sensor is equipped with an advanced chip that offers optimal responsiveness.

Firmware updates are also available to ensure that the device always remains up to date and performing.

The device works with a rechargeable battery (included) and is recharged via a USB type B cable, but thanks to its energy efficiency, the batteries can last up to a year.

The sensor can be mounted on the wall thanks to the wall bracket to optimize the monitoring of temperature and humidity in your home.

In short, the **Ezon.io Temperature and Humidity Sensor** represents a step forward in home environmental monitoring. With its accuracy, advanced connectivity and intelligent features, it offers flawless control and optimal comfort for your home.

Product code:	9.000.078
Size:	75mm x 75mm - height 24mm
Size with stand (not included):	75mm x 77mm - height 27mm
Operating temperature:	da -40°C a 100°C
Operating humidity:	da 0% a 100% di umidità relativa
Battery:	1 Li-Ion 18650 3,7V 2,5Ah (battery included)
Connettore:	Micro USB Type B (cable not included)
Battery life:	up to 12 months

MADE IN ITALY

FC RoHS CE

### Why choose Ezon.io Temperature and Humidity Sensor?

The **Ezon.io sensor** is ideal for those who want to accurately monitor indoor climate conditions. Thanks to its compatibility with Alexa and Google Home, it is easy to integrate the device into a home automation system for maximum comfort. With its long battery life and app management, it offers a practical and intelligent solution for environmental control at home.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.

The ezon.io products should not ever be used in any way to manage medical devices or other technical products which are critical for the functioning of lifesaving or supporting systems, cause in the case of failure that may lead to the death or injury of a person. Usage of ezon.io devices in such systems requires the explicit written permission of the Mediatech Srl CEO.
