T&H SENSOR - 02 (for plate 503) cod.9.000.086

The ezon.io temperature sensor can determine the temperature or humidity level in an environment.

The Ezon.io temperature and humidity sensor designed to be inserted inside a normal 503 box.
The device allows you to monitor the environmental conditions in your home or in any other internal environment.
Thanks to its high precision, it reliably detects the temperature and relative humidity, allowing you to maintain total control over the climate of your home.
One of its main features is the compatibility with other Ezon.io devices (climate managers), which allows for seamless integration into your home climate automation.
The sensor is easy to install and manage with the **Ezon.io app**, which allows you to monitor the device and connect it to voice assistants such as **Amazon Alexa and Google Home** to customize your automation experience.
The sensor is equipped with an advanced chip that offers optimal responsiveness.
Firmware updates are also available to ensure that the device always remains up to date and performing.
The device in this version is designed to be inserted inside a 503 box and supplied with a special closure.

In short, **Ezon.io Temperature and Humidity Sensor** is a step forward in home environmental monitoring. With its accuracy, advanced connectivity and intelligent features, it offers flawless control and optimal comfort for your home.

Product code:	9.000.086
Size:	120mm x 80mm - height 12,5mm
Operating temperature:	from -40°C to 100°C
Operating humidity:	0% to 100% relative humidity
Power supply:	210-220V AC (requires ezon.io power supply cod 9.000.033)

■ ■ MADE IN ITALY

FC RoHS CE

Why choose Ezon.io Temperature and Humidity Sensor?
This sensor represents a modern and precise solution for home environmental monitoring. Thanks to its compatibility with the ezon.io app and voice assistants, easy installation in a 503 box, and its ability to transmit data in real time, it offers maximum comfort and control for your home. With the Ezon.io temperature and humidity sensor, optimizing the home environment has never been easier.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.
