T&H SENSOR - 01 (wall powered) cod.9.000.087

The ezon.io temperature sensor can determine the temperature or humidity level in an environment.

The Ezon.io temperature and humidity sensor, featuring a minimal and modern design, allows you to monitor the environmental conditions in your home or any other indoor environment.

Thanks to its high precision, it reliably detects the temperature and relative humidity, allowing you to maintain total control over the climate of your home.

One of its main features is the compatibility with other Ezon.io devices (climate managers), which allows for seamless integration into your home climate automation.

The sensor is easy to install and manage with the **Ezon.io app**, which allows you to monitor the device and connect it to voice assistants such as **Amazon Alexa and Google Home** to customize your automation experience.

The sensor is equipped with an advanced chip that offers optimal responsiveness.

Firmware updates are also available to ensure that the device always remains up to date and performing.

The device is powered directly at 210-220V AC.

In short, the **Ezon.io Temperature and Humidity Sensor** represents a step forward in home environmental monitoring. With its accuracy, advanced connectivity and intelligent features, it offers flawless control and optimal comfort for your home.

Product code:	9.000.087
Size:	60mm x 60mm - height 32mm
Operating temperature:	from -40°C to 100°C
Operating humidity:	0% to 100% relative humidity
Power supply:	210-220V AC (direct feed)

🇮🇹 MADE IN ITALY

FC RoHS CE ✖

Why choose Ezon.io Temperature and Humidity Sensor?

The Ezon.io sensor is an excellent choice for those looking for precision and reliability in monitoring environmental conditions. With its elegant design, compatibility with the main voice assistants and the possibility of monitoring data in real time via the app, it offers intelligent and optimal control to improve home comfort.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.
