SWITCH DUAL OUTPUT cod.9.000.091

MADE IN ITALY

Product code:	9.000.091
Sizes:	38mm x 29,5mm x 14mm
Input n°:	3
Output n°:	2
AC Switch characteristics:	AC 90V-250V | 50/60Hz | Max 500VA
Supply voltage:	5VDC (use cod. 9.000.033)

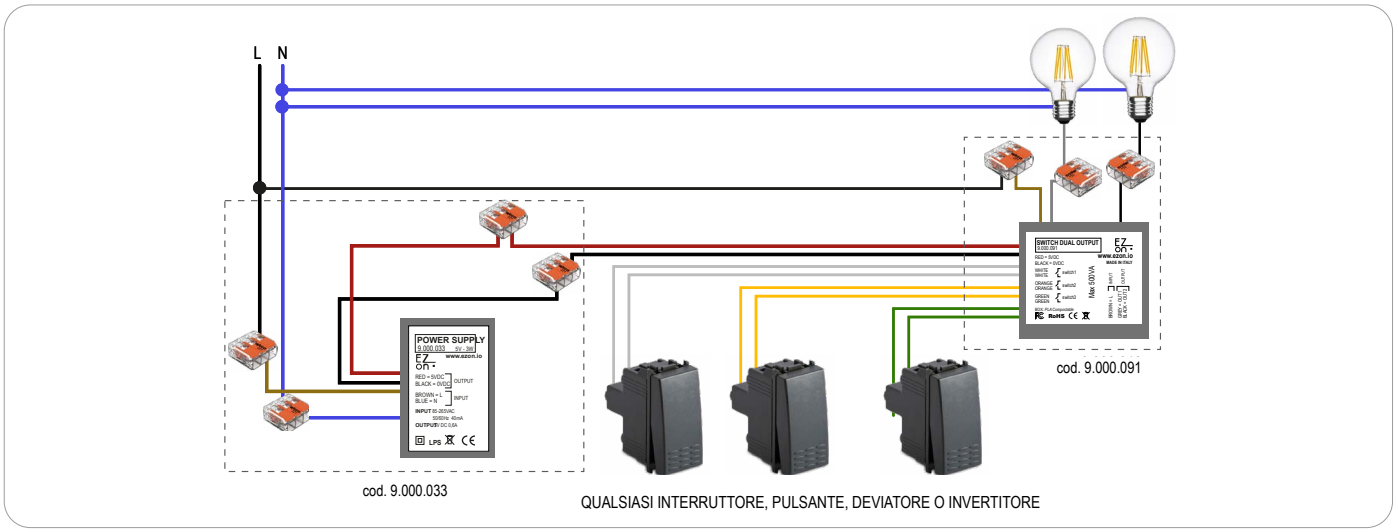

RoHS

The **ezon.io Switch Dual Output** is a device featuring 3 inputs and 2 AC outputs (up to 500VA), all of which are programmable and configurable.
You can use it to control connected devices manually via push buttons, switches, or two-way switches or through the **app** with a simple click.
The **ezon.io Switch Dual Output** fits directly into a standard 503-type electrical box, without altering the aesthetics or the existing wiring.
There is no need to replace your wall plates; you keep your original controls while upgrading only what lies behind them—leaving the visible appearance unchanged.
The **ezon.io Switch Dual Output** includes 3 inputs that can be connected to standard switches, two-way switches, or intermediate switches, along with 2 AC outputs (up to 500VA) that are fully programmable and configurable. Each connected button can trigger one or more actions simultaneously, or even perform different actions depending on the time of day.
When connected to a push button, in addition to standard ON/OFF functions and scene activation, it can also adjust the brightness (dimming) of **Illunaluce x Ezon.io lamps**.

Programming is handled via the **ezon.io Smart Home app**; it is simple and intuitive, requiring no professional technical assistance.
The **ezon.io Switch Dual Output** communicates via the ezon.io mesh network, allowing you to control connected devices through the ezon.io Smart Home app even without a Wi-Fi connection. When paired with the **ezon.io Mini Hub 2** (9.000.090), it enables remote control of electrical appliances, as well as voice control via virtual assistants.

The **ezon.io Switch Dual Output** boasts extremely low energy consumption, ensuring efficient power usage and reduced operating costs.
Thanks to mesh networking, the **ezon.io Switch Dual Output** does not require a hub or a Wi-Fi network to function correctly. A hub is only necessary if you wish to enable remote or voice control.

The **ezon.io Switch Dual Output** is the ideal solution for advanced, flexible control of your electronic devices. With manual scene activation and the execution of synchronized actions, it offers reliable, personalized control to optimize your automation setup and create a truly smart home.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.
