 **MADE IN ITALY**

FC **RoHS** **CE** 

The **Ezon.io Mini Hub** is the essential device to transform your home into a fully connected smart home. With cloud-based functionality and integration with **Amazon Alexa and Google Home** voice assistants, this mini hub allows you to manage your Ezon.io devices remotely, wherever you are.

With a simple voice command, you can control lights, thermostats, and other smart devices in your home.

Main features:

- **Easy to setup.** The Mini Hub quickly integrates with the Ezon.io Smart Home app, making setup simple and intuitive.
- **Compact and portable.** The compact design allows you to easily place it anywhere in your home, without taking up space.
- **Complete control from a single app.** With just one Mini Hub, you can remotely manage all your ezon.io devices, making it easier to manage your smart home even when you're away from home.
- **Voice control.** Thanks to our cloud and Mini Hub you can manage your home with voice assistants like Amazon Alexa or Google Home to control your devices with simple and fast voice commands.
- **Remote control.** If you are away from home, open the ezon.io Smart Home app to monitor and manage your devices, saving energy and money.

The ezon.io ecosystem is manageable and programmable with the ezon.io companion APP. Available for free download from App Store and Google Play.

The ezon.io products should not ever be used in any way to manage medical devices or other technical products which are critical for the functioning of lifesaving or supporting systems, cause in the case of failure that may lead to the death or injury of a person. Usage of ezon.io devices in such systems requires the explicit written permission of the Mediatech Srl CEO.
