

## SODIO

## ILLUNALUCE

This table lamp combines modern design and functionality. Elegant and refined, it's ideal for lighting offices, desks and reading corners.

Equipped with a long-lasting rechargeable battery, Sodio was conceived thinking of those spaces where it is not possible to make electrical connections.

This peculiarity makes it suitable, for example, for tables in restaurants, clubs, bars and sophisticated work environments.

Thanks to its "rotating" light source it's possible to direct the luminous flux according to the your needs by creating direct or indirect light.

Sodio, like all illunaluce lamps, is entirely produced in Italy.

The structure is in plastic while the diffuser is opal plexiglass.

### Product features

**MADE IN ITALY**

Voltage:	220VAc
IP Grade:	IP20 (internal use only)
Operating T°:	-20 °C +40 °C
Lifespan:	50,000 hours without changes in light intensity 100,000 hours of absolute duration
Dimmer:	integrated
Light color:	warm white (3000°K) or cool white (5000°K)
